### AFFAIRS OF THE DISTRICT

Assessor Darneille Favors Setting Aside a Tax Sale.

The Fault Said Not to Have Been With the Owner of the Property. An Arrearage of Twenty Cents on a Parcel of Land in Cleveland Park-Penalties May Be Canceled.

Carroll D. Judson, attorney for the District Title Insurance Company, recently addressed the Commissioners requesting the cancellation of the tax for 1899 and sale for taxes of that year on a parcel of land in Cleveland Park, assessed in the name of Charles G Allen. He writes:

"Under date of February 7, 1900, there was issued by the Assessor of the District a tax certificate, No. 46,428, on parts of lots numbered 11 and 18, block 8, and one-tenth of an acre in Cleveland Park, assessed in the name of Charles Gordon Allen, upon which the taxes, then in arrears, were shown to be: General taxes due for 1899, \$27.39, and for the year ended June 30, 1900,

"On April 10, 1900, said tax certificate was presented at the office of the Assessor and a bill for the 1899 tax requested. In response to said request a bill for all of the tax amounting to \$27.39, penalty \$3.83, advertising \$2.40, total \$33.62, was received, and on the same day paid to the Collector. The discrepancy of 20 cents between the amount of the tax as shown

by the tax certificate and that valled for in the bill, was not observed by the party paying the same.
"It appears, nevertheless, that the 10-100 acre above described was sold for an alleged arrears of taxes amounting to 20 cents at the tax sale of April, 1900. As this sale took necessary. this sale took place without any fault on the part of the owner and subsequent to a request for and payment of a tax bill for the preparation of which the Assessor's certificate of taxes was tendered as a guide to indicate the property, and which bill the owner was led to believe represented all his indebtedness on ac-count of the 1899 tax, it is respectfully submitted that the sale was unwarranted and should be canceled, together with all costs and penalties thereon."

H. H. Darrielle the District Assessor, in reporting on the application for the ancellation of said sale of land said to the cancellation of said sale of land said to the Commissioners: "Mr. Allen was assessed in the year 1899 for parts of lots 11 and 18, block 8, Cleveland Park, as non-agricultural land, and a bill was rendered and paid for the same. The 10-100 of an acrewas assessed to the same party on the agricultural book in the amount of 20 cents tax, and a bill was not rendered for this parcel consequently was not peid and rectitural book in the amount of 20 cents tax, and a bill was not rendered for this parcel, consequently was not paid, and was advertised and sold at the tax sale in April, 1900, for \$1.48 to Henry Walter.

It is, therefore, recommended that the sale of April 20, 1900, of the 10-100 of an acre referred to be declared void, and that payment be received, with interest and penalties to April 10, 1966, the date of the THE UNION VETERANS UNION. payment on lots 11 and 18, block 8, Cleve-land Park."

The Commissioners today received a letter from Henry C. Hallam, of 410 Third Street northwest, in which he asks for a decision of the Street Cleaning Department on his complaint of August 31, relative to the removal of ashes from his house. Mr. Hallam states that the point of complaint in his former letter was that the ash collector refused to remove the ashes by way of a private alley, and insisted that they should be placed on the pavement or the basement in front. Mr. Hallam also states that the receipt of his former letter was acknowledged, and that he was informed that an answer would be made upon infor a decision of the Street Cleaning hat an answer would be made upon in-

Mr. Stutler explained that the introduction of the new plan of removing ashes had developed numerous complaints owing to the fact that the methods of building houses and the laying out of streets have been such as not to render the collection of ashes, garbage, etc., at all convenient for the drivers of the carts. But he said that the question of accessibility in individual instances was being carefully studied with a view to remov-ing the difficulties and to placing the serice on a basis that would conform with the comfort of householders and the convenience of collection.

"It is claimed that the amount of tax shown by the tax certificate and that alled for the bill was not observed by the party paying the same, and this claim is substantiated by the fact that the certificate presented when a bill was applied."

Street Cleaning, stated to the leter of Mr. Hallam, that an inspector of the department made an investigation of the matter upon the receipt of the former complaint, and that he found the facts to be that the alley through which he wanted the ashes carride ran about eighty feet west and forty feet north to the rear of Mr. Hallam's house. This it was thought too long a distance for the ashes to be carried by the collector, especially when the house has facilities for taking the ashes out front way without their being carried through the rooms of the house.
